

Lab 1 - Outline

1. Noise Generation Notebook
2. Noise Identification & Removal Notebook
3. Weekly Task

3. Multiple Noise Identification Task

Overview

- **Dataset:** Randomly perturbed CAMUS & Italian hospital (inhouse)
- **Core Task:** Reuse the provided notebooks to extend them to the **analysis of multiple noise types per image**.
- **Do not upload** the data in **public GitHub repositories**.
- Applied noise types will be shared for self-evaluation.
- **Google for Students** for Gemini assistance in Colab notebooks.
- **Important:** Fill in **this form** for dataset access.
